INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
American Savings Life Insurance Company

We have audited the accompanying statutory statements of admitted assets, liabilities and capital and surplus of American Savings Life Insurance Company as of December 31, 2007 and 2006 and the related statutory statements of operations and changes in capital and surplus, and cash flows, for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described more fully in Note 2 to the financial statements, these financial statements were prepared in conformity with accounting practices prescribed or permitted by the Arizona Department of Insurance, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities and capital and surplus of American Savings Life Insurance Company as of December 31, 2007 and 2006, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 2.

Our audits were conducted for the purpose of forming an opinion on the basic statutory financial statements taken as a whole. Schedule 1 – Selected Financial Data on pages 15-16 is presented for purposes of additional analysis and is required by the Arizona Department of Insurance as supplementary information to the basic statutory financial statements. Such information has been subjected to the procedures applied in the audit of the basic statutory financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic statutory financial statements taken as a whole.

This report is intended solely for the information and use of the board of directors and the management of American Savings Life Insurance Company and state insurance departments to whose jurisdiction the Company is subject and is not intended to be and should not be used by anyone other than these specified parties.

Note 11 - Claims and Contingencies

INDEPENDENT AUDITOR'S QUALIFICATION LETTER

To the Board of Directors
American Savings Life Insurance Company

We have audited, in accordance with U.S. generally accepted auditing standards, the statutory financial statements of American Savings Life Insurance Company for the years ended December 31, 2007 and 2006, and have issued our report thereon dated February 20, 2008. In connection therewith, we advise you as follows:

- a) We are independent certified public accountants with respect to the Company and conform to the standards of the accounting profession as contained in the Code of Professional Conduct and pronouncements of the American Institute of Certified Public Accountants, and the Rules of Professional Conduct of the Arizona State Board of Accountancy.
- b) The engagement partner and technical review partner, who are certified public accountants, have 20 years and 31 years, respectively, of experience in public accounting. Members of the engagement team were assigned to perform tasks commensurate with their training and experience.
- c) We understand that the Company intends to file its audited statutory financial statements and our report thereon with the Arizona Department of Insurance and other state insurance departments in states in which the Company is licensed and that the insurance commissioners of those states will be relying on that information in monitoring and regulating the statutory financial condition of the Company.

While we understand that an objective of issuing a report on the statutory financial statements is to satisfy regulatory requirements, our audit was not planned to satisfy all objectives or responsibilities of insurance regulators. In this context, the Company and insurance commissioners should understand that the objective of an audit of statutory financial statements in accordance with U.S. generally accepted auditing standards is to form an opinion and issue a report on whether the statutory financial statements present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus, results of operations and cash flow in conformity with accounting practices prescribed or permitted by the Arizona Department of Insurance. Consequently, under U.S. generally accepted auditing standards, we have the responsibility, within the inherent limitations of the auditing process, to plan and perform our audit to obtain reasonable assurance about whether the statutory financial statements are free of material misstatement, whether caused by error or fraud, and to exercise due professional care in the conduct of the audit.
